

# **SYSC 4001 Assignment 2 Part 3**

Nate Babyak — 101310590

Ozan Kaya — 101322055

November 7, 2025

## **1 Introduction**

The goal of this part is to simulate `fork()` and `exec()` system calls using a single CPU, fixed memory partitions, PCD, and external files.

The simulator is made of the following components:

## **2 Test Scenarios**

## **3 Conclusion**
